Preface

The Babwisi people live in Bundibugyo District, western Uganda. They number about 150,000 people.

This book will help the Babwisi people understand more about child birth. Read it carefully, let the advise enter your mind, and then practice the things that are being advised. Don't forget to also ask God, who is the creator of all things, to help you with birthing and raising your children in a way that will bring Him honor.
